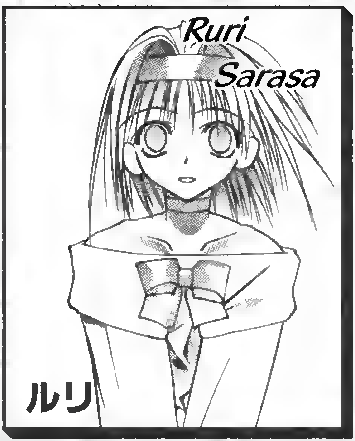
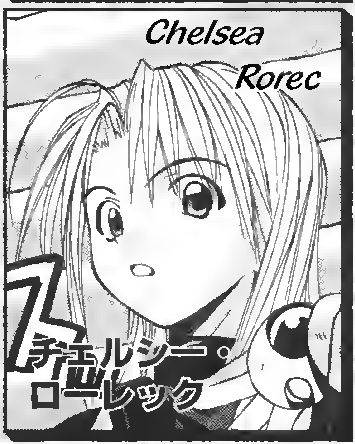
TOKYO UNDERGROUND

There is a railroad not in use anymore that stretches through the darkness, ending deep under the ground of Tokyo, Japan's capital. Beyond there lies a sealed world without sun.

TOKYO UNDERGROUND





SUMMARY OF PREVIOUS VOLUME

To save Ruri, the Priestess of Life, who was captured and taken away by Pai Ron, Rumina and his allies ventured into the underground world.

Along the way, Ciel sacrificed herself in order to help Ruri escape from The Company headquarters.

Rumina and his allies, still searching for Ruri, head towards the Tower Gate, before which stand Pai Ron's special squad: Netsu, Kemuri, Oto, and Kage. The four element users obstruct their path and hinder their journey.

Rumina, Chelsea, and Ginosuke (who was borrowing Sui's power), defeat the four element users over many trying battles.

Upon arriving at the Tower Gate, only one question stands out above all others, will Rumina and Ruri be able to meet again!?

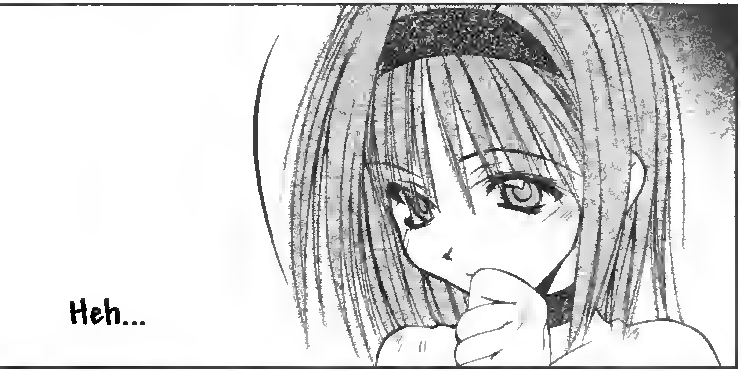
さっ
Not good...

Really don't know what to say...
Your hair grew longer ...

We haven't seen each other for a while
Erm ...
R-Really ...
So it's like this.
"Giggle"

Really ...?
ほっ
Eh?
That's hilarious



Heh...

Then it's probably better that I'm tied up.
Looks weird.
Then...
Eh?
Hoho ...

What the hell am I doing...?
Uhh...eh?
I still have a lot of unresolved issues...
Actually... I still have a lot of things to say to her,
Weird huh?

I'm actually overjoyed ...
So if it's like this...
But then why am I filled with tears...
this is too strange

Then I'll blow away your tears and sadness with my wind!
Let's...
go back to the surface!
Okay!
The one that ran away...

Because I was scared that everyone's smile will all only become a memory
scared that the time where everyone lived together...
would become an irreplaceable memory, so I couldn't control myself!

Wow... so pretty!
The electricity is back, finally.
くいっ
Seems to have gotten brighter than just now.
hee hee ...

Because the surface people and the Company's traitors who took away the priestess, are destroying everything recklessly.
The Company is starting to move..
You really are a child
The people destroying this place are your companions! And besides, how did they know we were here?
If you underestimate the Company too much,
be careful not to lose your life!

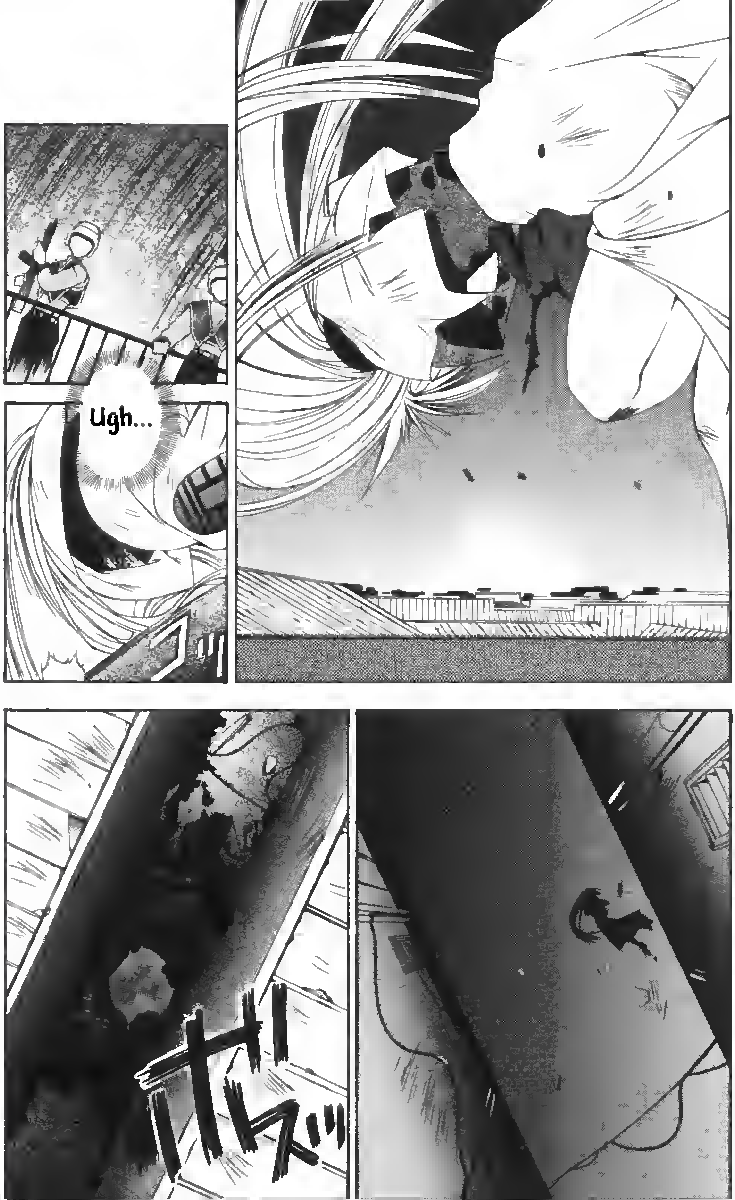
If you're in the Underground, it doesn't matter where you run to since they will always have ways to find you
They are right about that...
Under this kind of situation, do we still have a need to fight with the Company?
Chelsea -sama?

What are you doing? Aim a little better!
But ...

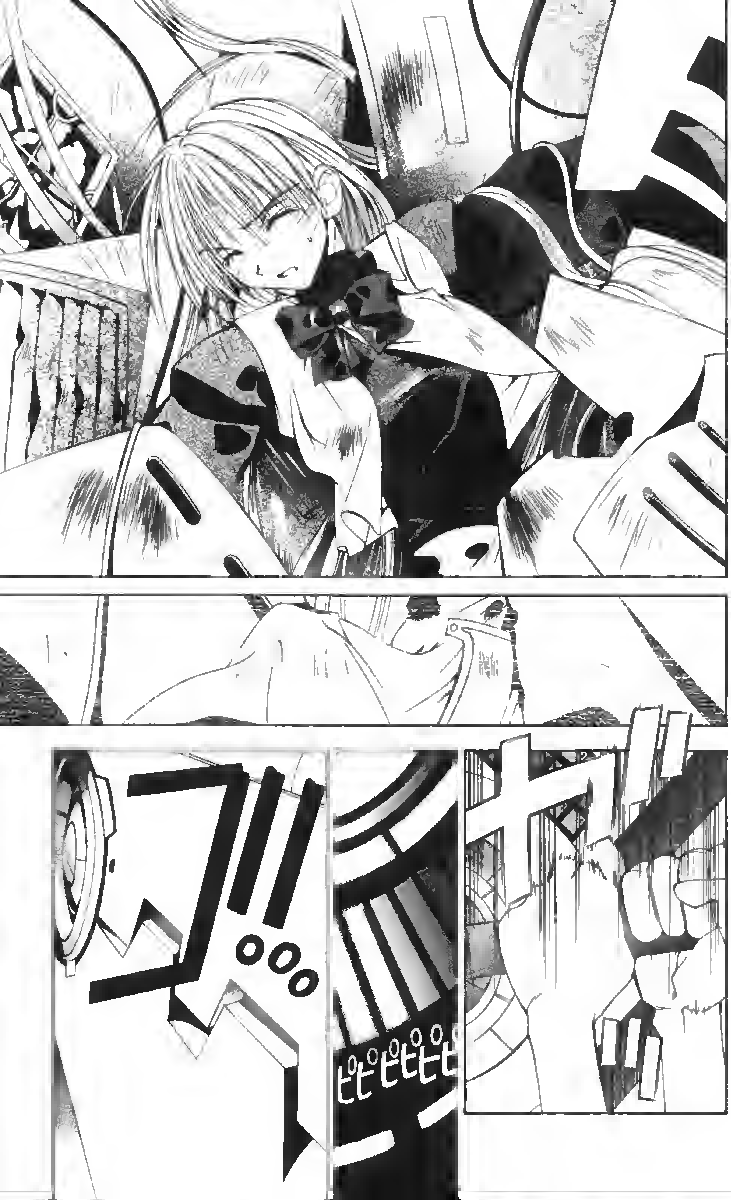
Eh!?

Traitor Chelsea Rorsc is on the rooftops and running towards area 2!
ドン ドン

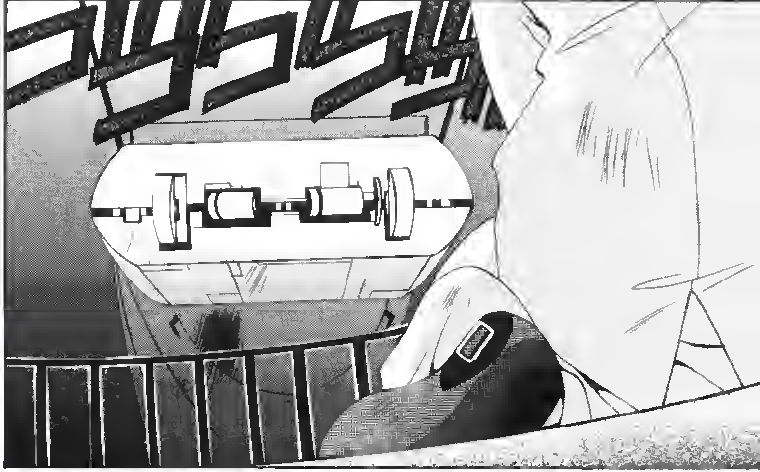
Ruri...
ハア ハア
ドン ドン
カン カン カン

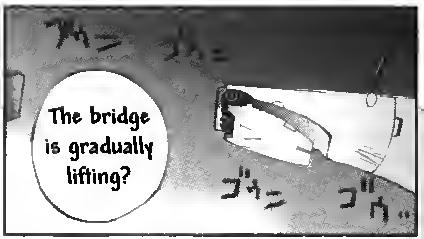


Ugh...



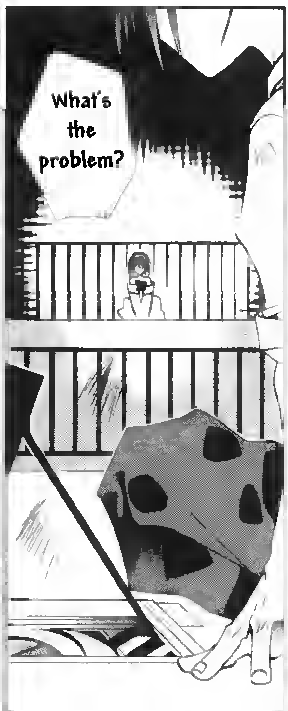
ゴゴゴ
ゴゴゴゴゴゴゴ
ガバ





The bridge is gradually lifting?

No problem, I'll find a way to get across!
I'm sorry...



What's the problem?

Don't worry, leave it to me!
If only I didn't get captured...
Can we still go to school?
?
Eh?
Look!

It looks like the starry sky,
just like what we saw that day at school!
Since it's like this...

I must let you see the real starry sky again!

Ahh
...
!?
Oooh!
Ru-Rumina?
Whew...
Strange...
Whew..

A force so shocking, so powerful...

<Rage!>

he came...
Oh ...
ネネ
Company's number 2!

I will never forget...
You bastard ...

Pai
Ron!

It's been a while, brat.

ガーン!!!
Damn it...
That bastard is asking for an ass-whoopin'!
Rumina, what's wrong?
Nothing ...
Ever since school started, my classmates all misunderstood me to be a troublemaker...
How could that be?
ムラムラ

Chapter 31
The Priestess's Secret

Or is that not true?
まりゃっ
You're exactly right.
I am a very good person, how come everyone can't understand?
ガーン

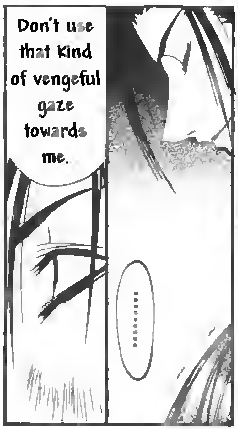
My house has a cute girl and a blond tiger's mother...
Heh... don't you try and take advantage of the situation!

I always thought it would be like the clouds in the clear sky, eternally living on.
This kind of awesome life where we live together,
Until those kinds of people appeared...

Only you...
can I never forget !

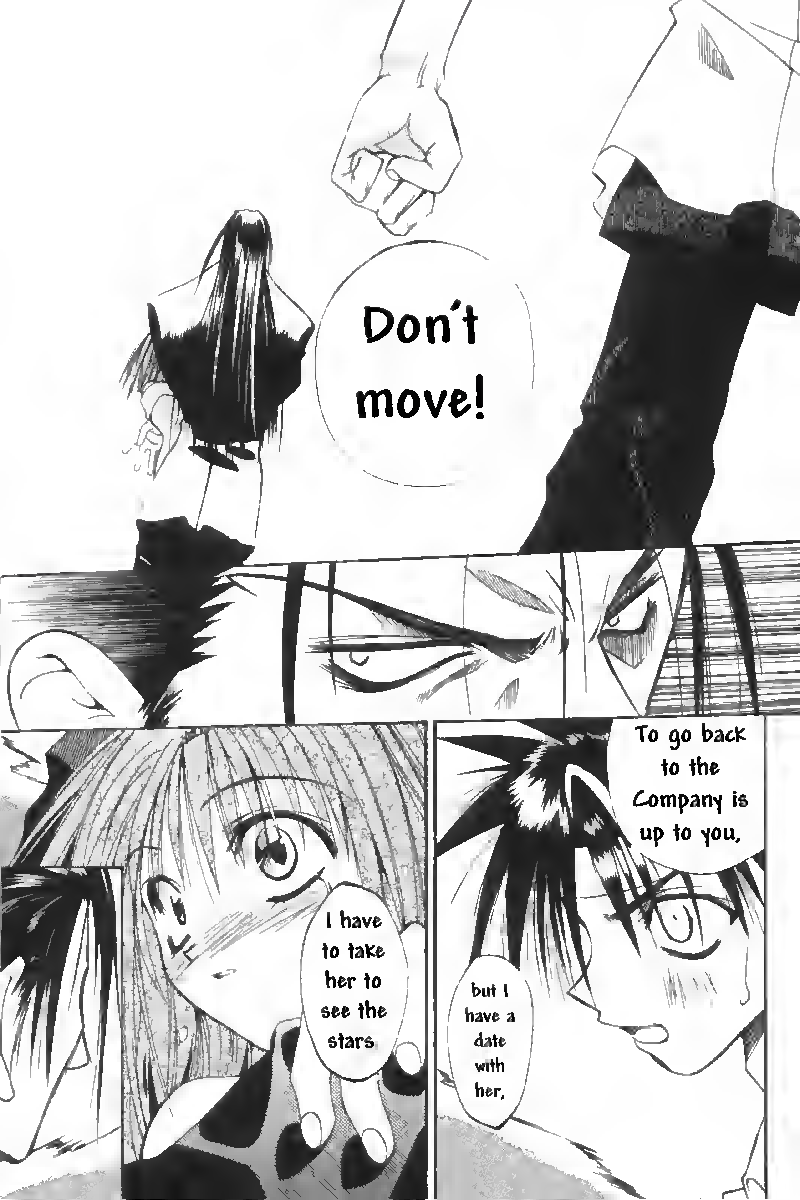
I haven't forgotten you, you little brat
Where's Ciel?
It's been a while since we've last met

She's dead.



Don't use that kind of vengeful gaze towards me.
.....

Brat.
If you see her, please let her know I said hi.
I will find her myself.
It was Chelsea who brought you down to this place!
We'll wait a little before we take care of that traitor.



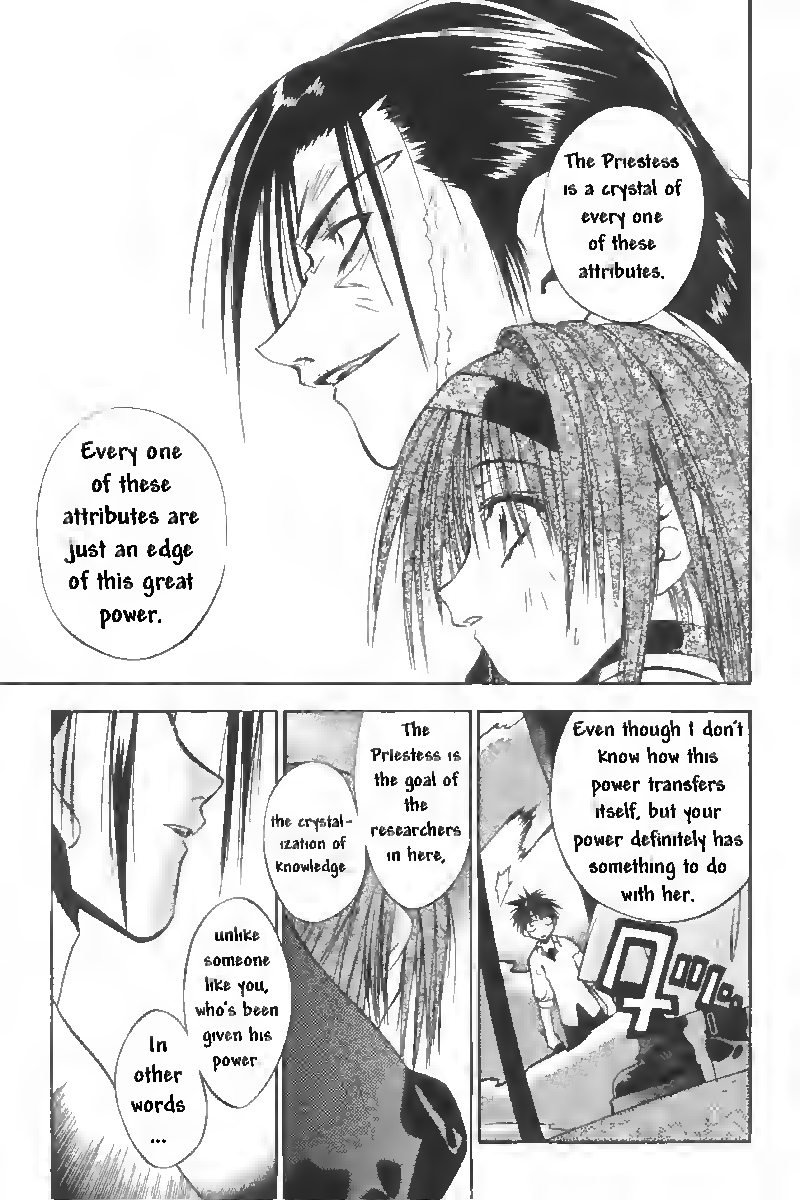
Don't move!
To go back to the Company is up to you,
but I have a date with her,
I have to take her to see the stars

Haha
What?
This kind of atmospheric pressure can only be done by professionals.
This is the wind ability
Maybe you've never thought of this, how someone from the surface like you...
can have this kind of power?

That bitch Chelsea should have told you before!
But ...
you may not understand a vague explanation like the one I'm giving.
The Priestess has a resurrecting power, and only the Priestess has this kind of unique power.
!?
Powers like this, which gives life to the dead, can humans possibly do this?

To people who don't usually use their brains, this is a very difficult concept to understand.
ugh
But,
If you think about the actual process of life, then it's not that hard to understand

All the attributes of Earth that were on the surface can be called a kind of miracle, the strange balance between all of them.
life is created from them.
Fire, Wind,
Water, Earth,
and Gravity...



The Priestess is a crystal of every one of these attributes.
Every one of these attributes are just an edge of this great power.
Even though I don't know how this power transfers itself, but your power definitely has something to do with her.
Gulp
The Priestess is the goal of the researchers in here,
the crystal-ization of knowledge
unlike someone like you, who's been given his power
In other words ...

The sunlight that can be seen from the surface,
or the starry skies, are actually very useless ...

What is your criticism based on?
An asshole like you, can't understand that kind of feeling at all!

I changed my mind.
Nicely said,
Haha...

Looks like I must punish the person without upbringing that you are.
!!!
Rumina ...

Hah...
You want to defeat me? It won't be that easy!
How could Kemuri have gotten defeated by the likes of you...
Hah!

What did you do?
Heh...
I was just thinking of cutting you up.
How can that be possible..
!?!
What? He actually damaged me..

I have a layer of water shielding me.
not even a scratch, but an attack is very difficult...
Except for that time...
キ!!

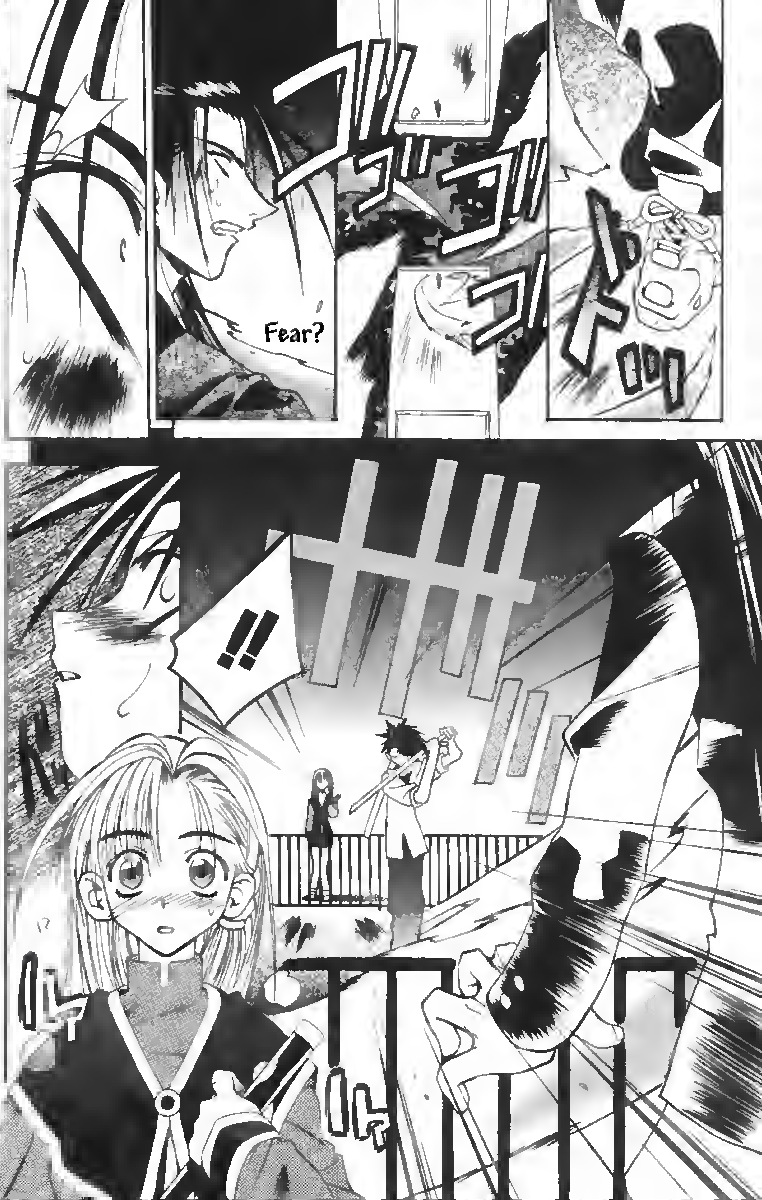
You!
Don't misunderstand.
I am a just person.
!!
things I can use, I definitely won't waste!
Ugh ..

It'd be strange if I could see them!
Hey, you...
can see my attacks?
Using the wind to detect where the attacks are coming from, is already draining my energy...
I...

I will drag everyone down because of me!
will only let more people get hurt.
Big sister ...
Go do whatever you want to do!
!?

Bitch!
!?

Oh...
my body is shivering?
This is...
!?



Fear?
!!

Eh?
Uh?

The "Revival Power!"

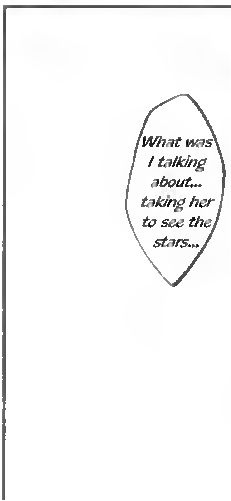
All the energy is flowing towards...
the direction that brat was falling!
Whoa
That's too magnificent...

オオオ
That guy is still alive.
I'm falling ...

...
A warm breeze is swirling around me ...
It's the same as when Ruri saved me at the surface...

オオオオ
Did she just save me again?

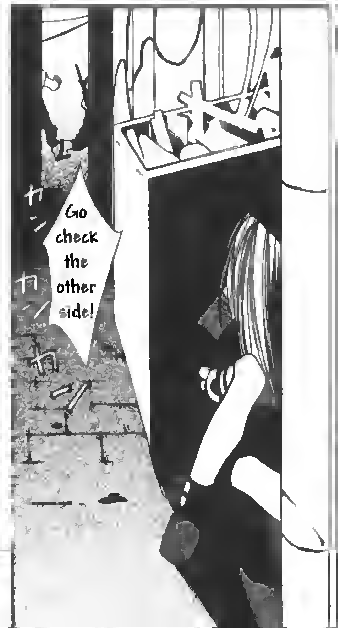
ガラ



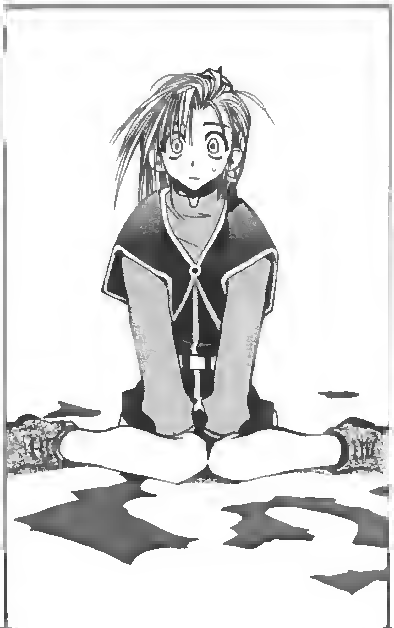
What was I talking about... taking her to see the stars...

Whew... the wound has already healed entirely.

Who am I to say that, when I can't even hold hands with her

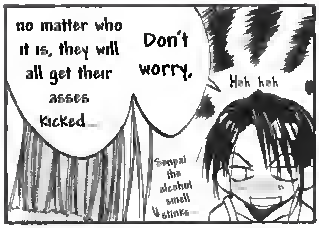


Go check the other side!
カンカン

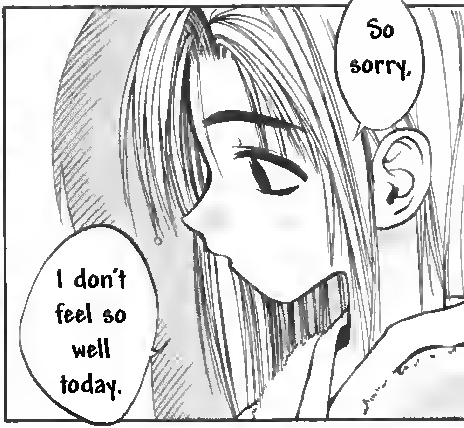


HOTEL SWEE
I couldn't believe you Company traitors would be this powerful, you actually defeated those professionals.

What ...?
Really?
don't forget about me!
You've already said that 3 times-
Emily, you want a cup?
Looks better as you keep looking, huh?
Whoa!
Aya .. I was just lying!
That hurts...



no matter who it is, they will all get their asses kicked...
Don't worry.
Heh heh
Sweep! the alcohol smell stinks...



So sorry.
I don't feel so well today.

You're wrong...

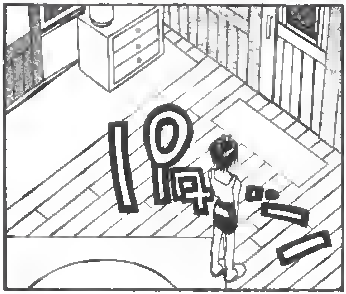
If these words have a little truth in them, then the Company we believed in
as we grew up...

After seeing Rumina get hurt,
the Priestess crying,
and the smile on Pai Ron-sama's face...

Chelsea-sama?
Don't worry.
Since everyone will see the Company's true colors sooner or later.
Don't be too worried!
I haven't seen the sun set before...

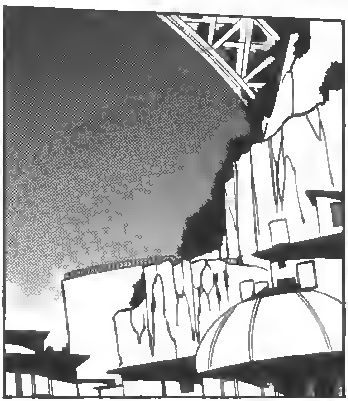
Once it turns to nighttime, the lights suddenly turn off
Everyone treats these events as being normal, but,
The image of the black shadow settling after the sun sets on the surface ...
Kids here have never seen that before
isn't it very strange?

Chelsea-sama, where are you going?
ぱっ
So to the Company... I...
The majority of the Company's personnel have similar feelings as you;
they're risking their lives to support the underground.
The Company has become very strange lately...



1階

All right, let's drink until we drop tonight!
トクトク



And also, Ruri-sama's crying wasn't your fault.

オオオ
Ever since that red head came,
that one time on the school's roof was the only time she smiled.

The reason I came here was so that I can take her back.
She's the first girl to hold my hands!
WHAT AM I THINKING?
You're not good enough for her!
Really?

Then why...

did you not protect her well?

What the...
!?
You actually sat there watching...
her being captured?

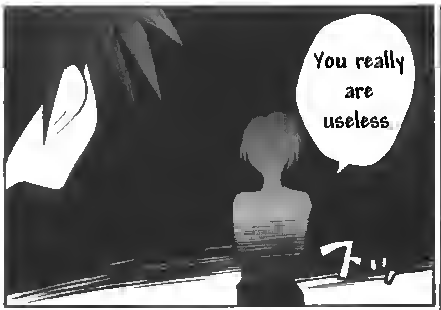
Oh?
That hurts!
I know ...
that you're becoming more and more important in Ran-sama's heart.
Because of this ...
Damn it!

That's why I can't forgive you for your inability!
Whoa!
It hurts
Ugh

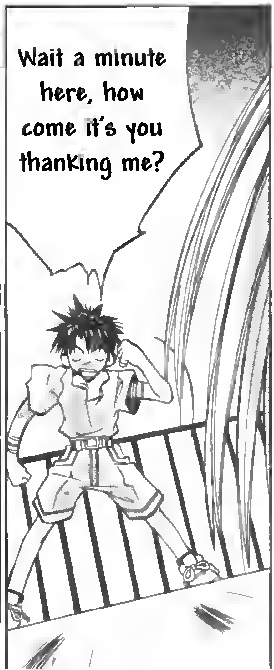
Are you done yet?!

Still want to continue ?
Thank you

I feel a lot better now.



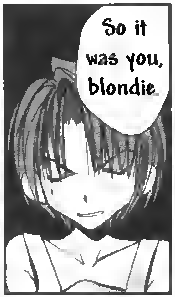
You really are useless.



Wait a minute here, how come it's you thanking me?

I know...

You should also work harder!



So it was you, blondie.

Actually, the one to say thanks should have been me.
?
The bottom line is...
What?
We shouldn't be depressed and everything!
???

You ate my tofu?
I didn't!

Wel-come back.

Okay!

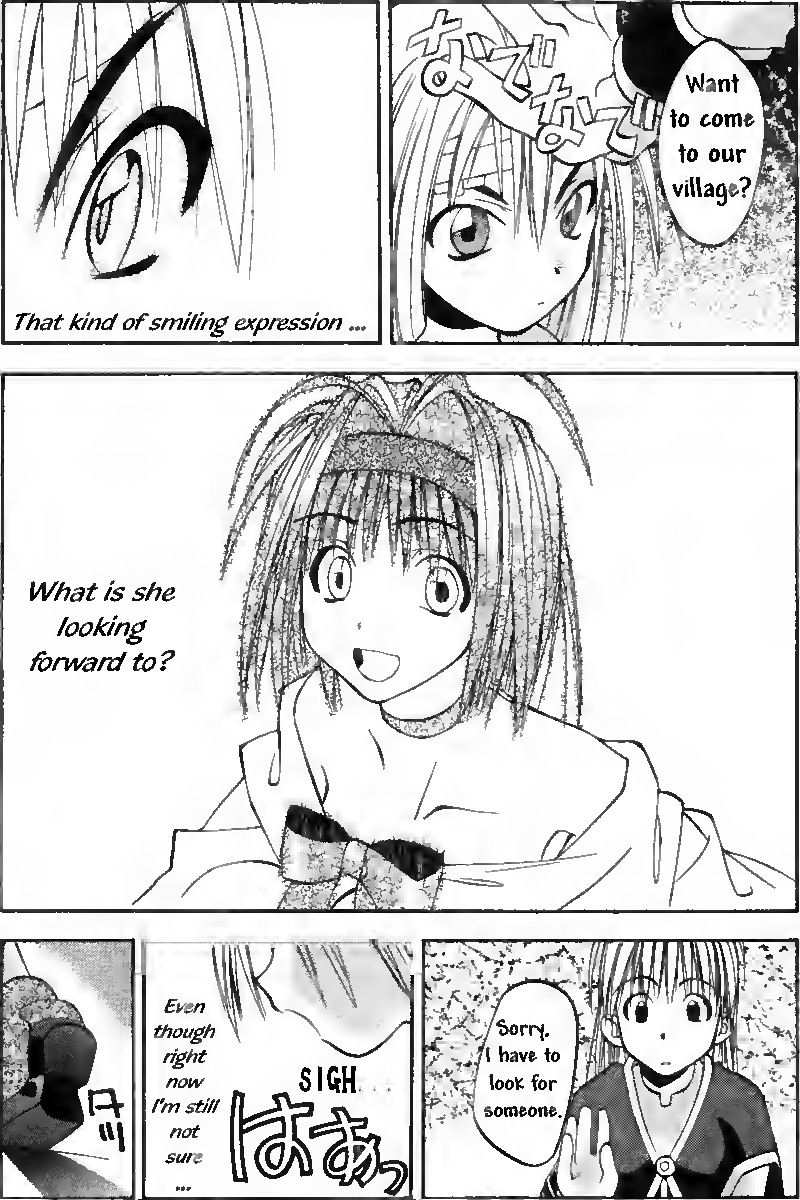
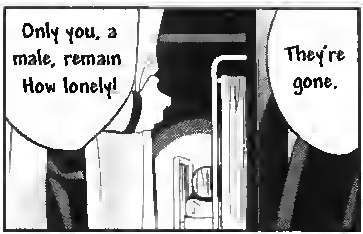
Oof!
Don't worry, I'm a lot better!
Are you sure you're all right? Your wounds don't look like they're fully healed yet
Oh right, about the favor I asked you...
Oh?
About being an agent of the priestess
ガラガラガシャーン

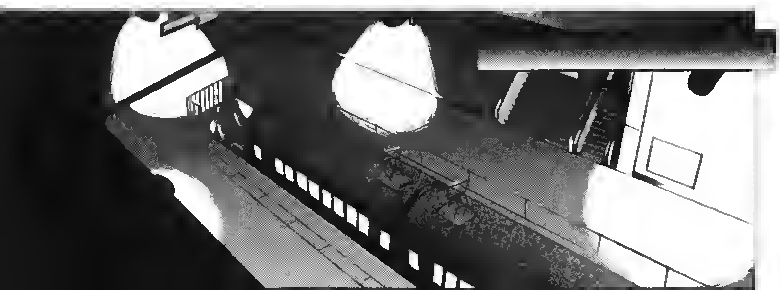
I also heard that you would be demoted to the point where you would have to watch the merchandise outside the unused elevator.
I don't want that ...
According to Company's 1st rule out of 8, if the agent fails to protect the priestess, then they will be sent to the uninhabited "Nine Dragons Area".
What ?
This isn't being beautiful!
What a difficult situation ...
But it's already a miracle that you're still alive after fighting against Pai Ron-sama.
So sorry I couldn't be of any help.
What do you plan to do in the future?
Hmm...
You're still okay, right?



That kind of smiling expression ...
Want to come to our village?
What is she looking forward to?
Even though right now I'm still not sure ...
SIGH...
Sorry. I have to look for someone.

But I definitely won't give up until I find out for sure!





The electricity stopped, and a large number of civilian homes were damaged, the repair bill including the buildings and the injured people is...

How can you be unmoved when your very own brother is in this state?
Pig-head! Once I think of those two people I get scared...
You should thank them, since they made you look more like a guy.
Don't show that kind of face to me.

Aren't you the same!
I only battle for myself.
Even the brats from the surface don't look up to you.
no wonder you're only a C-class supei.
What?
I'm not like you, I will become an A-class supei, I'll be stronger than Seki and Kasshin!

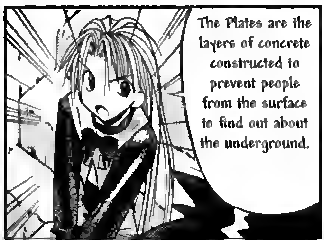
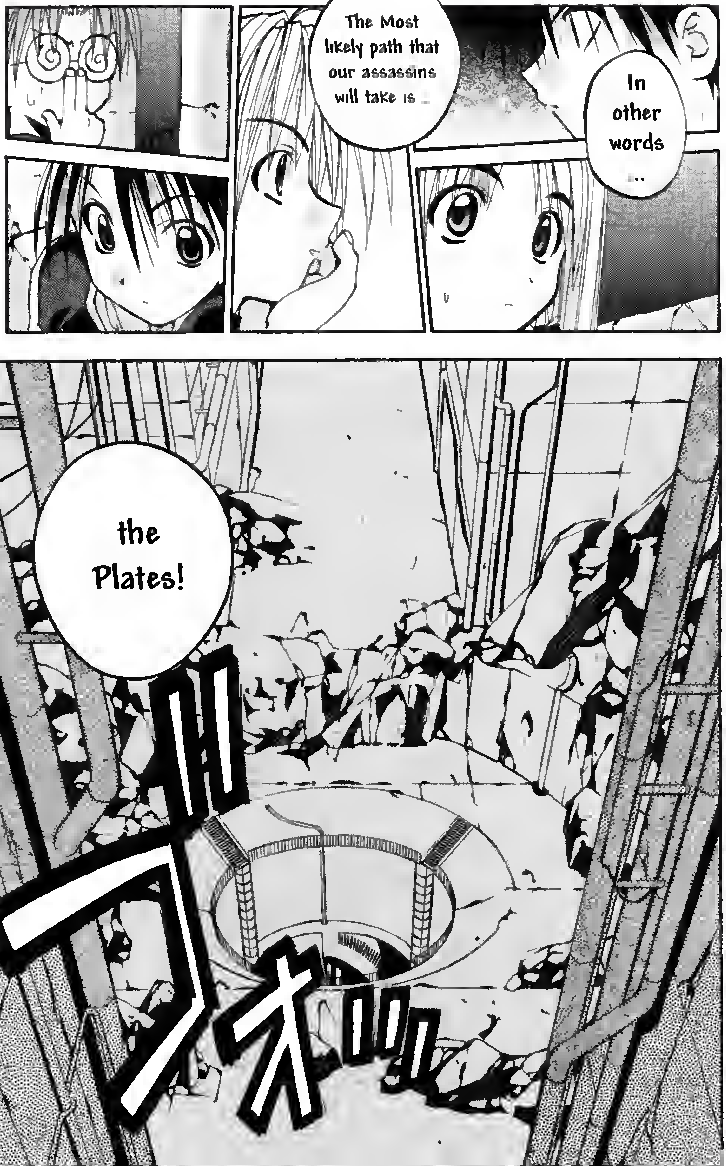
Company Headquarters
It's just like a network, connections between each are above the levels. Even the surface has to connect through here to get to other places.

What are the Plates?

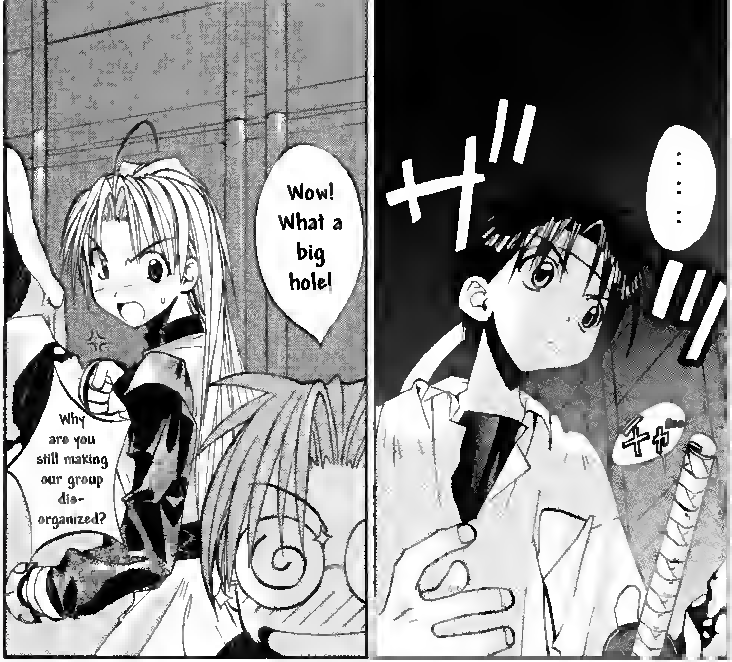
We must use the less convenient Plates to enter Company's main headquarters.



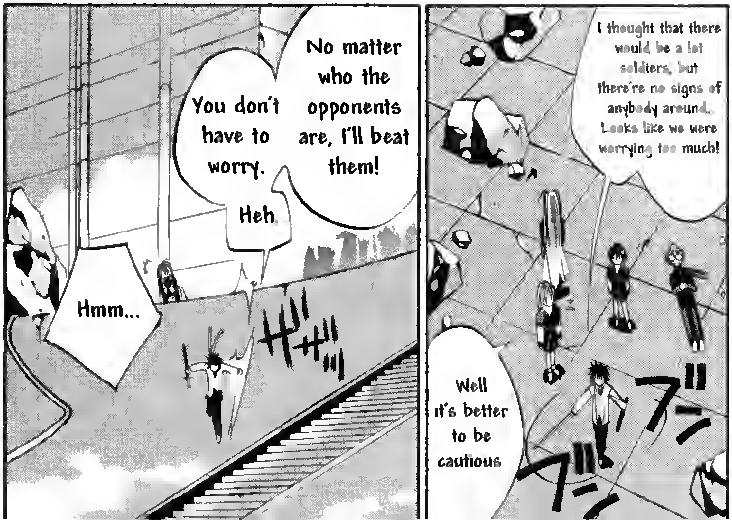
The Plates are the layers of concrete constructed to prevent people from the surface to find out about the underground.



The Most likely path that our assassins will take is ...
In other words ...
the Plates!
ゴゴゴゴ



Wow! What a big hole!
Why are you still making our group disorganized?
. . .



No matter who the opponents are, I'll beat them!
You don't have to worry.
Heh.
Hmm...
I thought that there would be a lot soldiers, but there're no signs of anybody around. Looks like we were worrying too much!
Well it's better to be cautious

Ahhhhh!
Wait!
I forget to say that we need to enter at wly
Let's hurry!
It sounded like Sharuma Rufis. It must be an assassin from Company.
You don't have to tell me
The sound of someone screaming in pain?
Are you okay?
You bastard from Company... show yourself!

So cute! Can you give me one?
Fine home made jewelry on Sale
Me too ..
I want one too.
What are you guys doing? Made me worry and run here to see what was going on!
Really?
We're looking at jewelry right now.
Looking at jewelry ?!

Look, Chelsea-sama, the shop owner gave us this jewelry!
I have some too!
Here's a bracelet for you, miss
Wow... the shop owner is so generous... Chelsea-sama, hurry up and try it on!
How can there be a store here...
Chelsea-sama, raise your legs a bit.
I'll help you put this on
Mwa haha...
I thought about it the whole night, this disguise is the most natural.
Nobody would suspect me...

This guy is suspicious!
Don't run away!
So sorry, but the odds are against you people this time!
You were the magnetism user from the village?
Mwahaha ... someone like me won't run!

The bracelet is stuck to the metal wall... can't move...

What is this?

Don't get cocky!
I am more than enough to defeat you!
Ha

What?
Bastard...
so there was another one hiding.
Haha... let's see how long I can play with you!

Wind user.
Who is that? I've never seen him before.
My apologies, you can't save your companions
Those bracelets are the products of our power.
heh heh heh
"Our"?
Don't tell me you're also...

I'm ordered to kill you. Die!
A Magentism user!
Hah... that's just perfect!
Haiiiiya!

I won't hold back either!
Heh..
so you do have a few moves.
Then...
But this is not its only use.
The Magnetic power increases my speed.
FAST!
Roller-blades?!
Spinning Yo-yo!

What the..?
The yo-yos are knocking away my katana?
I just blocked them with it a second ago...
Idiot!
The yo-yos are magnetically charged,
if you use the katana to attack, it will be knocked back by the magnetic power!
Exactly!

Super-fast punch!
You had better try a little harder, don't disappoint me
Wait a minute!
Ugh! That guy is stronger than I expected..

Right now isn't the time to play around with kids!
Aren't you the one playing around?
Listen, we're close to Company. We can't be defeated here.
...
If we die, nobody is going to be able to save Ruri-sama!
Hmph
I understand.
Just watch me from there.
Kid!

I don't have time to play with you right now!
The wind power!..
What the...
He disappeared?

I'm over here!
Whoa ...
Too... too fast...

Can't you feel the metal vibrate?
Idiot, my little brother's abilities aren't just at this level.

Chapter 35
Two Magnetism Users

Hah, finally became serious about this, huh?
Smirk
What's going on?

The surprise attack I was pulling off was perfect...
Even if I was going easy on him because he was a kid, he shouldn't have gotten back up so fast!
.....
Now you understand?
Idiot, are you dumb or something? He's using the magnetic power and the sword to dodge!

What do we do? That guy is right...
Hah.
If it has come to this...
I am a magnetism user!
Any metallic weapon you use to attack me will be countered again and again by the magnetic power. You'll never defeat me!

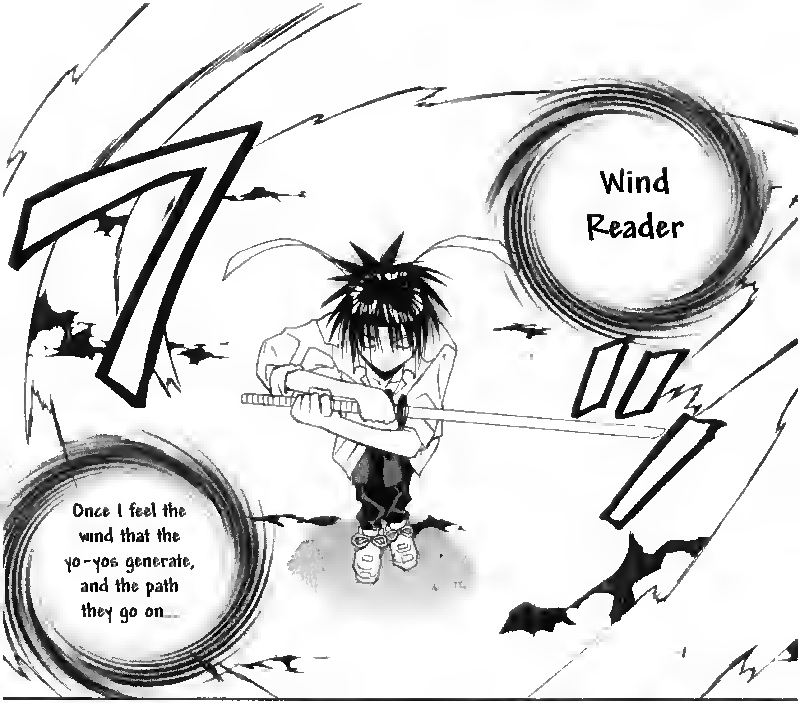
I'll keep attacking till you get exhausted!
That guy is trying to attack little by little, huh?
Just like I expected him to do
Since we're going to fight like this, then I should also
The repelling power of the magnetic force can't block the force of the attacks completely!
What a retard.
But the opponent will still be hurt a bit by the repelling force.

Coming !
Bro?
What... brothers?
Be careful, they're brothers!
Haha. Kourin is my blood-related brother.
That's why this time...
We are attacking together as brothers...

Super combined yo-yo!

The yo-yos' power doubled ?
The power of two people has made them faster!

Not just the speed, but the power also doubled!
Damn it... that hurts like hell!
Since it's come to this...
Damn it! To slowly defeat these yo-yos is impossible.
These six magnetically charged yo-yos will chase you until you're dead!



Wind Reader
Once I feel the wind that the yo-yos generate, and the path they go on...

!!?

!

The direction of the yo-yos... is impossible to predict?
Why is this...
What's with the look on your face?
Ugh
Looks like I can successfully complete Pai Ron's mission.
Hahaha ...

Pai...
Pai Ron?
Kourin, you should understand...
As for the traitor Chelsea, she's still injured from the last attack.
With your power, completing this mission shouldn't be too hard.
Even though the enemy has defeated Taylor Ashford before, he's still an inexperienced person from the surface.

If you complete the mission, you will be promoted to an A-class Supei
You will become one of Company's few A-class Supei
So you do have some kind of connection with that guy!
Is A-class Supei some kind of cake?
Ugh...
A-class Supei!

Out of all the Supei,
eight were picked as the best and most powerful
Seki, of course, is one of them.
Heh... not just that
If I do become an A-class Supei, using the underground's transportation and shelter is all free, and there will be a servant living with me too!
Plus, Company's first floor's hamburger restaurant will let me eat anything for free!
A級師兵
(A-Class Supei)

You little brat, my life is worth less than hamburgers?
The Water Blade and these six yo-yos both come from all directions.
Blondie is right, the theory is the same...
But there seems to be...
!?
I wanted to remind you from before, those yo-yos aren't little children's playtoys, they are almost like Taylor's water blade.
Be quiet, the toys today get better as they are made!

It's the opponent's fighting spirit!?
But these non-stop yo-yos aren't the same.
They have no set path or direction, in other words...
Taylor used his fighting spirit to control the Water Blade, then aimed for the enemy's vital areas, so I could easily find out its direction.

Magnetic field
Yo-yo
He is using the repelling magnetic force to attack randomly!
That's why even when I felt the wind's movement, I still couldn't predict the movement of the attack!!
Being that close to the enemy is dangerous!

I understand now, the two of them can't entirely control the yo-yos
Even though his getting too close is dangerous, they can't use the yo-yos now!
That guy didn't find out the yo-yos' weakness, did he? Why would he suddenly charge over?
Shit... stop quickly!
Move aside!
Too late!
Since it's like this...

Ugh...
I'll chop you into pieces!
One more time!

!!
He disappeared ...
When did he get behind me?
6
Doesn't matter, the magnetic power will repel him...

Hand to hand combat?

ナ!!!
ナス
That punch just now got you in the chin, you might not be able to stand for a while
ハァ..
Hand to hand combat is how it's really done!
I didn't think that he would attack with something not affected by my magnetic power...
ヨロ..

That voice is the gravity-
K-Kourin, get away from that guy!
You two really don't look like brothers.
Don't think that you've won just like that...
Wait...
I will...
You guys were too busy fighting, so the bracelet's magnetic power vanished!

Become an A-class Supei!

on Rumina right now...
Watch out for his yo-yo attack!
He doesn't have his brother's support, and was punched, he shouldn't be able to concentrate.

That won't work!!!

!!
Scratch!
Shit...

Are you okay?
I'm fine.
But that guy...
!!
He got hurt by his own weapon, that's totally pathetic.
He looks like he's really hurt.
But we can't just leave him unattended,
we should at least stop the bleeding

They are...
Haha... you idiots! Just as expected, you were blocked in here!
Inpei!
!?
That poor kid, he still thought that he could become an A-class Supei.

Pai Ron knew from the start that this guy would lose to the wind user.
In other words, he was just used to come here to block you guys.
Wha..?!
What's Pai Ron up to now...
An uncomfortable kind of wind..
If you don't want to die, then fuck off before I get pissed!

Down the Plate tunnel...
This is - - !!

Long time no see

Volume six is finally out. Looks colorful on the bookshelves, it really stands out doesn't it?

Stop, Rumina-san!

Haa---

Next time the main characters story above ground has heartwarming parts and intense battles

At the recording sasaion I was impressed by the pros acting skills

The cast are

Rumina = Seki TomoKazu-san

Chelsea = Mizuishi Kotono-san

Kuri = Terada Haruhi-san

Ginosuke = Hoshi Soichiro-san

Kirika = Kajima Sachiko-san

(Drama CD original character!)

I think it a some extravagant cast that I haven't even imagined, even the author is surprised

This time the manga is coming out as a drama CD

Once again, I think there are people who know

Increase my appearances!

Compared to that, in the manga, Ginosuke only appears to get hit by Chelsea...

... is how it feels like (?) the manga will be getting better too, please continue your support!!

Need to rethink...

Stop making commericals!!

Both scenario and characters were brought to life well, especially Ginosuk's Science Otaku, etc. There are many highlights; it feels pretty good.
